Item ALT	Description	Photo
21122003	<p>Antenna without electronic</p> <p>(to quote depending on the availability of the moment) It has only the function of visual deterrent.</p>	(Image not available)
21221055	<p>Sky Guard System AM 58 kHz</p> <p>This innovative system is the first of its kind allover the world. It's not necessary to install a big antenna to detect hard or adhesive tags. Sky Guard is installed on the lateral walls at the entrance of the shop.</p>	
21228001	<p>Stargate Silver System AM 58 kHz</p> <p>Thanks to its wide detection zone fewer antennas need to be installed. In fact, one Stargate's antenna can be used to cover the area where two or three other antennas are typically installed. This is valuable both for shops with limited space at their entrance and for shops with large entrances.</p> <p>Width: 430 mm; Height: 1576 mm; Thickness: 32 mm Base thickness: 96 mm Standard colour: silver grey</p>	
21228002	<p>Stargate Plexiglas Ice System AM 58 kHz</p> <p>Thanks to its wide detection zone, shops with large entrances benefits as fewer antennas are required to be installed. In fact one Stargate antenna can be used to cover the area where two or three other antenna are typically installed.</p> <p>Therefore the mono-antenna configuration is also beneficial where there is an extremely limited shop space, insufficient for two or more antennas.</p> <p>Width: 430 mm Height: 1576 mm Thickness: 20 mm Base thickness: 96 mm Standard colour: plexiglass</p>	

ALT SYSTEM PRODUCTION srl

21292053

Electronic box AM max 3 ant.

The AM electronic box is necessary for all AM systems. It can be used to connect 1 to 3 antennas.

Width: 242 mm

Height: 78 mm

Length: 466 mm

Weight: 8,2 kg
